

WAV Baseline Stream Monitoring Calendar

Every Month:

- Fill out the WAV datasheet for only the parameters you collect, in addition to your teammate's name, DNR station name and number, date and time, and your streamside observations.
- Enter your data into SWIMS when you get home:
wateractionvolunteers.org/data/submit-data/
- Be on the lookout for aquatic invasive species. Collect a sample, take high quality photos, and then report any suspect AIS.
